I am writing in prayer that you will not even consider displacing K-LOVE. It is truly an inspiration for my life. I am so busy with work, school and taking care of family I hardly have time to study my bible and go to church. So I get alot of my teaching and worship time in the car listening to K-LOVE. I remember to be a good christian with loving thoughts of my fellow man often while the world is crazy thanks to K-Love. I don't get mad at drivers who are crazy...or neighbors that have no consideration. I care about God's kingdom and want to do things that make it pleasing to HIM...like take a shopping cart back that some left out in the parking lot too lazy to take back, or pick up garbage that people throw out on the ground and don't pick up after themselves.

I would be soo empty without K-LOVE to encourage me everyday...and thousands of others also.

You of course know how hard it is to stay christian minded among non-christians and this would be a disaster not to have K-LOVE to turn to for love and encouragement for the word of the Lord.

Please don't displace my station that gives soo much of the Lord to my heart, mind and soul.

Sincerely,

Sandra Lucchesi
